Re-use

Often the items we no longer want can be re-used or repaired and loved by someone else. Furniture, white goods and clothing are just a few of the items that can be accepted for re-use at your local HRC. Mid and East Antrim council is working in partnership with local charities to make the best use of these items.

What you need to do when visiting your Household Recycling Centre

To make your trip to the Household Recycling Centre (HRC) as quick and easy as possible please follow the simple steps below:

- S** **Sort** recyclable and non-recyclable materials at home. Disposal of recyclable items in general waste skips is no longer permitted;
- O** **Organise** your recyclables and waste in your vehicle so that when you visit the HRC you can place items in the correct containers. This will make your visit much quicker;
- R** **Re-use** if you have bulky items such as furniture, electricals and bicycles these could be re-used – look out for the relevant containers!
- T** **Talk** to our staff – if you are unsure about what can and cannot be recycled please ask, our staff will provide advice on which container to use.
