## Cover Letter

I am a resident living in Glenarm with a small field [REDACTED] I would like to use it to support additional local housing, tourist accommodation or for personal use i.e. a garden room or social space. I am outside the permitted development line at present and would request that it is amended accordingly. Any development would be sympathetic to the surroundings and have sustainability as a core principle.

Regards

## Comments:

### Land use

**Chapter or Policy:** 8. Building Sustainable Communities

**Tests of Soundness:** General comment

I would like to request that land adjoining 16 Straidkilly Road (belonging to 16 Straidkilly Road) be included within the permitted development zone of Glenarm with the aim of supporting the provision of the required level of local housing as set out in this plan, and supporting local tourist accommodation. Any development to respect local character and surroundings, and be sustainable in nature. Please amend the permitted development line accordingly.
