Environmental Management System ISO14001:2015

2023-24 Objectives & Targets

Ref	Climate Action Plan Theme	UN SDG	Sub-theme	Objective	Target
Obj1	Buildings & Energy	7, 9, 12, 13	Energy	Improve the energy efficiency of Council buildings to help deliver carbon reduction targets and reduce costs.	Deliver 10 LED lighting projects.
Obj2	Buildings & Energy	6, 9, 12, 13	Energy	Maximize the use of renewable energy sources to help deliver carbon reduction targets and reduce costs.	To deliver 3 solar projects
Obj3	Buildings & Energy	6, 9, 12, 13	Energy	Deliver an energy efficiency education programme to Council staff.	Deliver to 100% of staff over 2 years
Obj4	Buildings & Energy		Water	Desktop review of water consumption across the estate.	Introducing water saving technologies, where appropriate.
Obj5	Buildings & Energy	6, 7, 9, 12, 13	Estate Review	Maximise the efficient use of buildings and facilities.	Complete review of energy /thermal efficiency of Council estate
Obj6	Transport	9, 11, 12, 13	Transport	To reduce fuel usage across fleet by 5% each year, over the next 3 years, compared to 2022/23	To deliver Route Optimization. To deliver Eco-Driver training to fleet officers as part of CPC.
Obj7	Transport		Digital Innovation	To reduce business and commuter miles.	Introduction of iPad reuse at community centres. Development of conference centres.

Obj8	Resource Management	12, 13	Waste Management	Deliver behavioral change in waste management	Delivery of reuse event for MEA communities
Obj9	Resource Management	12, 13	Waste Management	Improve the control of confidential paper disposal (recycling)	New procedure for confidential document control disposal
Obj10	Economy	6, 7, 9, 11, 12, 13, 14, 15	Sustainability Water Quality Energy Efficiency Improved biodiversity	To develop the ECOS Centre as a sustainability hub	Apply for test bed funding to develop green hydrogen, environmental education, hydrogen-powered refuse vehicle and renewable energy
Obj11	Protecting the Environment	13, 14, 15	Biodiversity	Delivery Climate Canopy Project.	Develop GIS spatial layer on tree location and condition. Develop and implement tree strategy.
Obj12	Protecting the Environment	13, 14, 15	Sustainability	To achieve Bronze Status in Sustainable Food Place	Promote sustainable food production, consumption and resource efficiency. Reduce, redirect, recycle food packaging and related waste.
Obj13	Good Governance and Community Leadership	11, 12	Sustainability	Include environmental and social value weightings in procurement policy.	Include weighting mechanism in service contracts valued above £138,760 and construction contracts valued above £5,336,937.
Obj14	Good Governance and Community Leadership	All	Climate & Sustainability	Implement climate and sustainability screening on all new and reviewed policies	100% new and reviewed policies screened
